Thanks for attending the lesson on prime numbers Best of luck in your exam!
Enjoy the rest of your day!
```

This program is for maths students who are preparing for their maths GCSE'S. The aim of this program is to check if the students know everything about prime numbers. For students who have forgotten about either what prime numbers are or the prime numbers between 1 and 100. This is a quick refresher. So, the students can achieve 100% in any prime number question which appears in their exam.
